FOR IMMEDIATE RELEASE

TEEN TECH FRIDAYS CONTINUES IN JANUARY

Teen Tech Fridays, which began a few months ago at the Southeast Steuben County Library, will continue in 2014.

This is a fun way for young adults ages ten and older to learn new technology skills and socialize after school. The programs are held from 3:30-5 p.m. on select Fridays.

The schedule is as follows:

Join us Jan. 17 for a 3D printer demonstration. Learn the applications of this fascinating technology. Projects created in this program will not be available to take home until a later date. The library's 3D printer was made possible by a grant from the Corning Rotary Club.

On Feb. 21 learn how to create word clouds from free online applications. Word clouds use words to create a collage of information in a colorful, graphic image. Try one for a school presentation or just for fun.
