FOR IMMEDIATE RELEASE

#### WINDOW REPLACEMENT SLATED FOR SEPTEMBER AT SSC LIBRARY

The windows of the Southeast Steuben County Library will be replaced in September 2014. Construction is set to begin on Sept. 8 and should last two to three weeks.

The library will maintain its usual hours of operation throughout construction and access to the stacks should not be affected.

The current windows were installed in the 1970s. The new windows will be double-paned and energy efficient with a bronze tint that will enhance the library patron's experience while reading or using the computers. This will be particularly beneficial in the reading room and the Children's Department where the light is harshest. These areas tend to get very warm.

A grant, the New York State Construction Aid for Libraries Program, will cover about 75 percent of the cost of the new windows.
