FOR IMMEDIATE RELEASE

GIVE LINUX OS WORKSTATION A TRY AT SSC LIBRARY

The Southeast Steuben County Library has a new computer workstation that computer geeks and legal hackers will find appealing.

The "Titan" is a GNU/Linux workstation fully loaded with educational games; video, audio and graphical editing tools; office suite; Skype; programming tools; tutorials and more.

Titan's system is a modern, Internet-enabled operating system similar to Microsoft's Windows or Apple's Mac OS, but developed collectively by volunteer programmers.

The laptop for this station was donated to the library.

Library volunteer and computer programmer, Brendon Smith loaded the Titan and set it up for our patrons.

The new station is not currently connected to the public printer. Be sure to save your work to your flash drive or CD.
