FOR IMMEDIATE RELEASE

TEENS INVITED FOR TEEN TECH FRIDAYS AT SSC LIBRARY

Teen Tech Fridays programs for teens and tweens ages ten and older. These fun workshops give teens a taste of a variety of technologies from software and robotics to 3D printing and electronic circuitry.

In July TTF Club is holding a special three-day tech camp. Scratch Camp will be held July 15-17 from 3:30-5 p.m. Attendees will create their own video games with MIT's Scratch program, complete with characters, backgrounds, sound effects and more. Attendance at all three days is required.

By now, you've heard of the 3D printer, but have you heard about the 3D pen? It's called the 3Doodler. It's a pen that allows the artist to create a 3D finished product. Bring your ideas on Aug. 21 and create a masterpiece. Workshop runs from 3:30-5 p.m. Funding for this program was made possible by a grant from the Best Buy Foundation.

Sign up is required for these programs by calling (607)936-3713 ext. 503 or stop by the Children's Department in the library.
