

# A leaf out of our book

What's going on at the Southeast Steuben County Library Vol. 1 Issue 8

## What is a library Website?

A library Website isn't like other Websites you may have seen. Sure, it follows the basic design rules so that you can find things quickly, but it's not simple like a business site, which may have one focus. Our library Website is deep and broad, and it has to be that way because in many ways it is a library itself.

You can download books, movies, music and TV shows. You can research any topic that you can imagine. You can even prepare for your GED or citizenship exam. This only scratches the surface. The next time you visit the library, ask a staff member to tell you what you can find on our Website. Chances are, you will get a different answer from each person. They will all be correct, but not complete. Take a peep at our site today and see what you find.
